**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A chilly feel to the day, especially in the brisk winds over the tops and during any showers. Feeling warmer in sunny spells. Conditions may deteriorate notably as showers move through, with waterproofs recommended.

Recent rainfall: measured at Neuadd: altitude 353m

02:00 on Wed 28 Sep 2022	1.8mm	8mm	9.4mm

Forecast for Thursday 29 Sep 2022

Weather: Rain overnight, most likely across eastern parts with some western parts potentially staying dry. Rain perhaps breaking up to showers, with clear spells, as it eases away south by dawn. A largely fine day follows, with plenty of dry weather and sunny spells but the ongoing risk of a few showers. These easing during the evening to clear skies.

Maximum wind: Northerly 15mph gusting 25-30 mph easing during the evening.

Chance of cloud-free hill tops 600m: 40% overnight, improving to 70% by midday, and near 100% by the evening.

Low cloud and visibility: Cloud obscuring tops above 500 metres at first, particularly across eastern parts, before lifting and breaking by day. Generally very good visibility, falling to moderate with any showers.

Temperature: **Valleys:** Plus 5 Celsius rising to Plus 17 Celsius.
At 600m: Plus 4 Celsius rising to Plus 8 Celsius
Freezing level: Above summits
